

ICI Practice Sessions

Starting October 3rd, we will begin holding Open Hours in the ICI for individuals to develop their supported typing skills. We have two new practice rooms with upgraded seating and new technology for individuals who use supported typing to practice with their facilitators. ICI training staff will be on hand to provide support and offer suggestions.

These times could be used for:

- Working toward independence
- Developing skills with a new facilitator
- Getting support on using facilitated communication for homework
- Typing with an experienced facilitator
- Learning new ways to practice
- Practicing or chatting together with another typer
- Trying out new or different technology
